TM NEWBURN GROUP

I am the Events and Development Manager for Bradford Council, department of Leisure Services. Having responsibility for planning and managing the programme of Park events there is often a need on our greenfield sites for electrical generation.

In 2008 TM Newburn Group were awarded a 3 year contract to supply generators for Bingley Music Live, an indie/pop festival with a crowd capacity of 15,000. A festival of this size requires a considerable number of generators across the site ranging from 200kva synchronised sets for powering the stage to smaller 40kva generators for powering venue lighting.

I am pleased to say that TM Newburn Group provided a quality service in support of this festival, from sitting down together at the planning stage to determine requirements, right through to delivering the service on site. My experience of TM Newburn Group is that they are a very competent company, demonstrating experience and knowledge in electrical generation and electrical installation. If you require a reliable and quality service for your Event/Company, I would not hesitate in recommending TM Newburn Group for the job.

Yours sincerely

Andrew Wood

To whom it may concern

I write to congratulate all at T M Newburns for successfully supplying all our generator requirements for our National Rally in May 2008 held at Holkham Hall. Your attention to detail from quotation to invoice is second to none. I am particularly impressed with your own transport fleet which provides reassurance that deliveries will be on time and within your control. The out of hours support should anything go wrong is also superb. I look forward to working with you all again in the future.

Dear Sirs,

Hull Fair 2008 - Generators

I refer to the above event which you provided generators for our use during the event. The service your company provided for us leading up to the event, during the event and after the event was always of a first class standard. Your staff, both on site and in the office are always keen to help and offer a very professional service.

The level of Health and Safety and quality of the generators you provided was also of the highest standard.

I do hope we can work together in the future on events and indeed look forward to our meeting this week to look at this year's event.

Yours sincerely,

Cheryl Ribbitt
Events Officer
